Exercise 05: Saving Favourite Files

In this exercise, you will create and save a Favourite file. Then you will organize the Favourite file by creating a Favourites folder and placing your file inside.

Instructions:

1. Press the **Home** button.
2. Set your **Viewing Location** to Columbia, United States.
3. Set the **Time and Date** to August 21, 2017 at 1: 15 PM.

Question: What major event will be visible on August 21, 2017?

_____

_____

4. Save your current scene as a Favourite file by selecting **Add Favourite** from the **Favourites** menu.
5. Give your file an appropriate name that describes the event.
6. Create a new Favourites folder by selecting **Add Favourite Folder** from the **Favourites** menu.
7. Name your folder.
8. Drag your new Favourite File into the new Favourites folder you just created.

On your own time challenge: Center and Zoom in to about 2 degrees on the event depicted on August 21, 2017. Change the time to 1:10 PM and set the Time Flow Rate to 30X real time. Press the **Run Time Forward button** to animate the event. Describe the sequence of events.
