Exercise 13: The Moon's Far Side

In this exercise, you will travel to the Moon and scroll around to its far side.

Instructions:

1. Press the **Home** button.
2. Open the **Find** pane. Type in "Moon" in the search box.
3. Click on the contextual pop up menu icon found on the far left of the objects name - in this case "Moon".

4. From the menu, select **Go There**.
5. Place your cursor over the Moon. Notice how the hand cursor changes from a "hand" to a 4 sided arrow.
6. Click and drag the Moon to scroll around to its far side.
7. Save your work as a Favourite File.

Question: What is the most prominent feature of the Moon's far side?

_____
